## **INDEPENDENT AUDITORS' REPORT**

To the Honorable Chairperson and Board Members of  
Ewing-Lawrence Sewerage Authority

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Ewing-Lawrence Sewerage Authority (the "Authority"), as of and for the years ended December 31, 2019 and 2018, and the related notes to financial statements, which comprise the Authority's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and requirements of audit prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## INDEPENDENT AUDITORS' REPORT (CONTINUED)

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of December 31, 2019 and 2018, and the respective changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### Emphasis of Matter

As discussed in Note N to the financial statements, the 2018 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

### Other Matters

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Supplementary Information*

Our audits were conducted for the purpose of forming an opinion on the basic financial statements as a whole. The schedule of revenues, expenses and changes in net position and schedule of operating revenues and costs funded by operating revenues compared to budget, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information, except for the part marked "unaudited," has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for that portion marked "unaudited," the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## INDEPENDENT AUDITORS' REPORT (CONTINUED)

### Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated, April 8, 2021, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

---

As financial management of the Ewing-Lawrence Sewerage Authority (the "Authority"), we offer readers of these financial statements this narrative overview and analysis of the financial activities of the Authority for the years ended December 31, 2019 and 2018. This discussion and analysis is designed to assist the reader in focusing on the significant financial issues and activities and to identify any significant changes in financial position. We encourage readers to consider the information presented here in conjunction with the financial statements taken as a whole. A comparative analysis of the financial statements data has been presented for 2019 and 2018.

#### FINANCIAL HIGHLIGHTS

Income from operations for the Authority was \$4,313,825 and \$1,386,235 for the years ended December 31, 2019 and 2018, respectively. The Authority's net position was \$26,310,898 and \$22,211,248 at the close of 2019 and 2018, respectively.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Authority's financial statements, which are comprised of the basic financial statements and supplementary information, including a schedule of revenues, expenses and changes in net position.

**Basic financial statements.** The basic financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to that employed by private-sector businesses.

The statements of net position presents information on all of the Authority's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between reported as net position. Over time, increases or decreases in net position may serve as useful indicators of whether the financial position of the Authority is improving or deteriorating. Net position increases when revenues exceed expenses. Increases to assets and deferred outflows of resources without corresponding increases to liabilities and deferred inflows of resources also result in increased net position, which indicates an improved financial position.

The statements of revenues, expenses and changes in net position presents information showing how net position changed during the fiscal year. All changes in net position are reported as soon as the underlying events occur, regardless of timing of related cash flows. Thus, revenues and expenses are reported in these statements for some items that will not result in cash flows until future fiscal periods.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the statements of net position and revenues, expenses and changes in net position.

**Supplementary information.** In addition to the basic financial statements, this report also presents certain required supplementary information related to pensions and OPEB and other information concerning operating revenues, expenses and net position, as well as comparisons to budget and information required by the Governmental Accounting Standards Board.

## EWING-LAWRENCE SEWERAGE AUTHORITY

### NOTES TO FINANCIAL STATEMENTS

---

#### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### **Reporting Entity**

Ewing-Lawrence Sewerage Authority (the "Authority"), is a special purpose local government located in Lawrenceville, New Jersey, created to construct and operate a wastewater collection and treatment system to service the Townships of Ewing and Lawrence, New Jersey (the "Townships"). The Authority entered into a contract with the Townships, dated October 18, 1951, as amended on October 9, 1961, obligating each Township to guarantee its proportionate share of annual charges to operate the system, debt service costs, and an amount to be set aside for renewals, replacements and extensions to the system.

##### **Basis of Accounting**

The financial statements of the Authority have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") applicable to governmental proprietary type funds.

In its accounting and financial reporting, the Authority follows the pronouncements of the Governmental Accounting Standards Board ("GASB") and other entities that promulgate accounting principles. GASB Statement 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, establishes the order of priority of pronouncements and other sources of accounting and financial reporting guidance that a governmental entity should apply. Per the Statement, the sources of authoritative generally accepted accounting principles ("GAAP") are categorized in descending order of authority as follows: GASB Statements and Interpretations, GASB Technical Bulletins, GASB Implementation Guides, and literature of the American Institute of Certified Public Accountants ("AICPA") cleared by the GASB. Authoritative GAAP is incorporated periodically into the *Codification of Governmental Accounting and Financial Reporting Standards* (Codification), and when presented in the Codification, it retains its authoritative status. If the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP described above, a governmental entity should first consider accounting principles for similar transactions or other events within a source of authoritative GAAP described above and then may consider nonauthoritative accounting literature from other sources. These include GASB Concepts Statements; pronouncements and other literature of the Financial Accounting Standards Board, Federal Accounting Standards Advisory Board, International Public Sector Accounting Standards Board, and International Accounting Standards Board, and AICPA literature not cleared by the GASB; practices that are widely recognized and prevalent in state and local government; literature of other professional associations or regulatory agencies; and accounting textbooks, handbooks and articles.

##### **Cash and Cash Equivalents**

New Jersey local governmental units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey, or in the State of New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey local governmental units.

Cash equivalents include certificates of deposit and highly liquid debt instruments with original maturities of ninety days or less.

## NOTES TO FINANCIAL STATEMENTS

---

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Cash and Cash Equivalents (Continued)

At December 31, 2019 and 2018, bank trust accounts consisted of repurchase agreements of a bank approved under the New Jersey Governmental Unit Deposit Protection Act ("GUDPA") and are collateralized by U.S. Government Agency securities on deposit at the Federal Reserve Bank of New York.

All other deposits at December 31, 2019 and 2018, were covered by the Federal Deposit Insurance Corporation (the "FDIC") and by the GUDPA.

#### Capital Assets

Capital assets include land and land improvements, buildings and building improvements, and machinery and equipment over \$10,000 which are capitalized and recorded at cost. System construction costs are charged to construction in progress until such time as given segments of the system are completed and placed in operation. Depreciation and amortization is provided over the estimated useful lives of the assets using the straight-line method. The estimated useful lives are as follows:

Land improvements	50 years
Building and building improvements	7-50 years
Machinery and equipment	3-75 years

Repairs and maintenance which do not extend the useful lives of the related assets are expensed as incurred.

#### Pension and Other Post-Employment Benefits ("OPEB")

The Authority recognized a liability for the net pension liability as required by GASB Statement No. 68 for the Authority's participation in the State cost sharing multiple employer defined benefit pension plan. Additionally, the Authority has recognized a net OPEB liability as required by GASB Statement No. 75 for the Authority's participation in the State cost sharing multiple employer defined post-retirement benefit plan and a total OPEB liability for the supplemental defined post-retirement benefit dental plan. See footnotes F and G for additional information on the plans.

#### Compensated Absences

Full-time union and non-union employees are entitled to earn and accumulate sick and vacation leave days each year. Unused time may be carried forward from year-to-year. In the event of separation from employment, the payment of accumulated sick time will be made for the accumulated value of unused sick time up to the cap of the lesser of 50% of unused sick time or \$15,000. Payments of accumulated vacation time will be made for the accumulated values of unused vacation time up to the cap of 200 hours at the employees' hourly rate at the time of separation. The Authority accrues a sick and vacation liability in accordance with this policy.

#### Deferred Outflows and Inflows of Resources

The statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time.

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Deferred Outflows and Inflows of Resources (Continued)**

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

The Authority is required to report the following as deferred outflows and inflows of resources:

Deferred outflows and inflows related to pensions and OPEB - The difference between expected (actuarial) and actual experience, changes in actuarial assumptions, net difference between projected (actuarial) and actual earnings on pension and OPEB plan investments, changes in the Authority's proportion of expenses and liabilities to the pension and OPEB as a whole, differences between the Authority's pension and OPEB contributions and its proportionate share of contributions, and the Authority's pension and OPEB contributions subsequent to the pension and OPEB valuation measurement dates.

#### **Net Position**

Equity is classified as net position and displayed in three components:

- 1) Net Investment in Capital Assets - consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any debt that are attributable to the acquisition, construction, or improvement of those assets.
- 2) Restricted - when constraints placed on net position are either a) externally imposed by creditors (such as loan agreements), grantors, or laws or regulations of other governments, or b) imposed by law.
- 3) Unrestricted - any other net position that does not meet the definition of "restricted" or "net investment in capital assets."

#### **Revenues**

The primary source of revenues is from annual charges. Annual charges are recognized as revenue upon billing the budgeted agreed-upon amounts to the Townships of Ewing and Lawrence. The Townships pay the Authority their shares of the operating costs and debt service. No fees are collected from the residents by the Authority.

Connection fees are recognized as revenue upon issuance of the connection fee permit.

#### **Contributions for System Improvements and Developer Contributions**

Developer contributions for system improvements and other developer contributions are recorded as operating revenues in the periods when earned under the terms of developer agreements. Developer-financed construction is recorded in the period in which applicable costs are incurred and is recorded at fair market value at the time of the contribution.

#### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Income Taxes

As a governmental entity, the Authority's income is exempt from taxes in accordance with Internal Revenue Code Section 115.

### B. CASH AND CASH EQUIVALENTS

Deposits were with contracted depository banks in interest-bearing accounts that were insured under the New Jersey Governmental Unit Deposit Protection Act ("NJGUDPA"). All such deposits are held in the Authority's name.

NJGUDPA permits the deposit of public funds in the State of New Jersey Cash Management Fund or in institutions located in New Jersey that are insured by the Federal Deposit Insurance Corporation ("FDIC") or by any other agencies of the United States that insure deposits. NJGUDPA requires public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

Each depository participating in the GUDPA system must pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of the lesser of 75% of its capital funds or \$200 million. The minimum 5% pledge applies to institutions that are categorized as "well capitalized" by federal banking standards. The percentage of the required pledge will increase for institutions that are less than "well capitalized."

No collateral is required for amounts covered by FDIC or National Credit Union Share Insurance Fund ("NCUSIF") insurance. The collateral which may be pledged to support these deposits includes obligations of state and federal governments, insured securities and other collateral approved by the Department of Banking and Insurance. When the capital position of the depository deteriorates or the depository takes an unusually large amount of public deposits, the Department of Banking and Insurance requires additional collateral to be pledged.

If a governmental depository fails and the FDIC or NCUSIF insurance does not insure or pay out the full amount of public deposits, the collateral pledged to protect these funds would first be liquidated and paid out. If this amount is insufficient, other institutions holding public funds would be assessed pro rata up to 4% of their uninsured public funds. Although these protections do not constitute a 100% guarantee of the safety of all funds, no governmental unit under GUDPA has ever lost protected deposits.

As of December 31, 2019 and 2018, the Authority's bank balances were exposed to risk as follows:

	2019	2018
Insured and Collateralized	\$ 736,392	\$ 876,116
Uninsured and Collateralized	23,725,094	22,563,076

### B. CASH AND CASH EQUIVALENTS (CONTINUED)

#### Custodial Credit Risk

Custodial credit risk is the risk that, in the event of failure of the counter party, the Authority will not be able to recover the value of its cash and cash equivalents that are in the possession of an outside party. Deposits were made with contracted depository banks in interest-bearing accounts that were insured under the GUDPA. All such deposits are held in the Authority's name. Deposits in excess of amounts insured by the FDIC are covered by a collateral pool maintained by the banks under GUDPA requirements.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Because the Authority maintains only cash and cash equivalents, it is not subject to interest rate risk if interest rates fluctuate.

**D. LOANS PAYABLE**

As of December 31, 2019 and 2018, the Authority maintained a loan balance of \$31,244,910 and \$33,552,388, respectively, through the New Jersey Infrastructure Bank ("NJIB") financing program. Under the NJIB financing program the Authority received \$947,467 in principal loan forgiveness in the series 2015 loan and \$2,276,703 in the series 2010 loan which represents a reduction in the principal loan amount that must be repaid by the Authority. The loan forgiveness is recorded as unearned principal loan forgiveness on the statement of net position and forgiveness is recognized as revenue based on a percentage of funds spent under the loan program. For the years ended December 31, 2019 and 2018, the Authority recognized \$33,630 and \$127,792, respectively, in principal loan forgiveness.

The following is a summary of NJIB loans outstanding (revenue bonds) at December 31:

### F. PENSION PLAN

#### Description and Benefits

The Authority contributes to a cost-sharing multiple-employer defined benefit pension plan administered by Public Employees' Retirement System ("PERS") of New Jersey, which is part of the Division of Pensions in the Department of the Treasury, State of New Jersey. The state-administered funds were established by an Act of the State Legislature that assigns the Authority to establish and amend benefit provisions to the plan's board of trustees. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERS and is also available on the State of New Jersey website.

#### Plan Description and Benefits

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007, and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008, and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010, and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

#### F. PENSION PLAN (CONTINUED)

##### **Plan Description and Benefits (Continued)**

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

##### **Contributions**

The contribution policy is set by N.J.S.A 43:15A for PERS and N.J.S.A 43:16A for PFRS. Both require contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the state. The state's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, the state's pension contribution was less than the actuarial determined amount. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in state fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012, and will be adjusted by the rate of return on the actuarial value of assets.

Under N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed that legally obligated the state if certain circumstances occurred. The legislation, which legally obligates the state, is as follows: Chapter 8, P.L. 2000; Chapter 318, P.L. 2001; Chapter 86, P.L. 2001; Chapter 511, P.L. 1991; Chapter 109, P.L. 1979; Chapter 247, P.L. 1993; and Chapter 201, P.L. 2001. The amounts contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the state is treated as a nonemployer contributing entity. Since the local participating employers do not contribute under this legislation directly to the pension plan (except for employer-specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers related to this legislation.

The Authority is billed annually for its normal contribution plus any accrued liability. The total contributions made by the Authority for the year ended December 31, 2019, were \$565,617. The Authority's covered payroll for the year ended December 31, 2019, was \$3,583,842.

NOTES TO FINANCIAL STATEMENTS

**F. PENSION PLAN (CONTINUED)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At December 31, 2019 and 2018, the Authority reported a liability of \$9,654,811 and \$10,783,473 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating members of the plan, actuarial determined. At December 31, 2019 and 2018, the Authority's proportionate share was 0.0535828197% and 0.0547676300%, respectively, which was a decrease of .00118%.

Components of Net Pension Liability

The components of the collective net pension liability of the Authority as of June 30, 2019, were as follows:

	Local
Total pension liability	\$ 22,232,296
Plan fiduciary net position	12,577,485
Net pension liability	<u>\$ 9,654,811</u>

For the year ended December 31, 2019 and 2018, the Authority recognized pension expense of \$(532,905) and \$(2,722,510), respectively. At December 31, 2019 and 2018, the Authority reported deferred outflows of resources as follows:

### F. PENSION PLAN (CONTINUED)

#### **Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

The amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	Amortization
2020	\$ (278,787)
2021	(904,380)
2022	(807,558)
2023	(379,190)
2024	(44,195)
	<u>\$ (2,414,109)</u>

#### **Actuarial Assumptions**

The total pension liability in the June 30, 2019 and 2018, measurement was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019 and 2018, using the following actuarial assumptions:

Inflation	
Price	2.75%
Wage	3.25%
Salary increases through 2026 (based on years of service)	2.00%-6.00%
Salary increases: Thereafter (based on years of service)	3.00%-7.00%
Investment rate of return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

### F. PENSION PLAN (CONTINUED)

#### Actuarial Assumptions (Continued)

In accordance with State statute, the long-term expected rate of return on plan investments (7% at June 30, 2019 and 2018), is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees, and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS target asset allocation as of June 30, 2019 and 2018, are summarized in the following table:

**Discount Rate**

The discount rate used to measure the total pension liability was 6.28% and 5.66% as of June 30, 2019 and 2018, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

**G. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS**

The Authority participates in multiple post-employment benefit plans. One is a cost sharing multiple-employer defined post-retirement benefit plan (the "Plan"), which is administered by the State of New Jersey. The Plan provides continued health care benefits to employees retiring after twenty-five years of service. Benefits, contributions, funding and the manner of administration are determined by the State of New Jersey Legislature. The Division of Pensions and Benefits charges the Authority for its contributions. The total number of retired participants eligible for benefits was 71 and 72 at December 31, 2019 and 2018, respectively. The Authority also participates in a supplemental defined post-retirement benefit dental plan (the "Dental Plan"). The total number of retired participants eligible for benefits was 53 and 53 at December 31, 2019 and 2018, respectively.

The Authority's contribution to the Plan for the years ended December 31, 2019 and 2018, was \$897,142 and \$960,772, respectively. The Authority's contribution to the Dental Plan for the years ended December 31, 2019 and 2018, was \$51,773 and \$87,318, respectively.

Please refer to the State website, [www.state.nj.us](http://www.state.nj.us) for more information regarding the Plan. The Plan's financial report may be obtained by writing to the State of New Jersey, Department of Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

**General Information about the OPEB Plans**

The Authority participates in the State Health Benefit Local Government Retired Employees Plan which is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the OPEB Plan. The OPEB Plan meets the definition of an equivalent arrangement as defined in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions* (GASB Statement No. 75); therefore, assets are accumulated to pay associated benefits. For additional information about the OPEB Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The OPEB Plan provides medical and prescription drug coverage to retirees and their covered dependents of the employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer-paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer.

Further, the law provides that the employer-paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011, will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The Dental Plan provides dental coverage to retirees and their covered dependents of the employees. The Dental Plan covers employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer.

**Allocation Methodology**

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective total OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The special funding situation's and nonspecial funding situation's total OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. The nonspecial funding situation's total OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2018 through June 30, 2019. The dental plan net OPEB liability is calculated using entry age normal actuarial cost method and the alternative measurement method in accordance with GASB methodology.

**Net OPEB Liability**

*Components of Total OPEB Liability*

The components of the Authority's total Plan OPEB liability as of June 30, 2019 and 2018, is as follows:

	June 30, 2019	June 30, 2018
Total Plan OPEB liability	\$ 8,773,700	\$ 11,110,542
Total Dental Plan OPEB liability	1,134,387	1,126,217
Total OPEB liability	9,908,087	12,236,759
Plan Fiduciary Net Position	(173,435)	(218,639)
Dental Plan Fiduciary Net Position	-	-
Total Fiduciary Net Position	(173,435)	(218,639)
Net Plan & Dental Plan OPEB Liability	<u>\$ 9,734,652</u>	<u>\$ 12,018,120</u>
Plan Fiduciary Net Position as a % of total OPEB liability	1.98%	1.97%

**Actuarial Assumptions**

The Plan's total OPEB liability as of December 31, 2019, was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The Dental Plan's total OPEB liability as of December 31, 2019, was determined by an actuarial valuation as of December 31, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	State Plan	Dental Plan
Inflation	2.50%	2.50%
Salary increases		2.50%
Through 2026*	2.00 - 6.00%	N/A
Thereafter*	3.00 - 7.00%	N/A

\* Salary increases are based on years of service within the respective plan.

**G. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)**

**Mortality Rates**

Mortality rates were based on the Pub-2010 General Classification Headcount-Weighted Mortality Table with fully generational mortality improvement projections from the central year using the MP-2019 scale. Actuarial assumptions used in the July 1, 2018, valuation were based on the results of the Plan – the Police and Firemen’s Retirement System (PFRS) and PERS experience studies prepared for July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively. One hundred percent of active members are considered to participate in the Plan upon retirement. For the dental plan the RP 2000 Mortality Table for Males and Females Projected 18 years is used. The assumptions in this table does not include a margin for future improvements in longevity.

**Health Care Trend Assumptions**

For pre-Medicare medical benefits, the trend is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2020 are reflected. The assumed post-65 medical trend rate is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years. For the Dental Plan the healthcare trend rate is 4.0% in year 1, 3.5% in year 2 and 3.0% in all remaining future years.

**Discount Rate**

The discount rate for June 30, 2019, was 3.50%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate. The Dental Plan discount rate for December 31, 2019 and 2018, was 2.62% and 4.24%, respectively.

**Sensitivity of Total OPEB Liability to Changes in the Discount Rate**

The following presents the collective total OPEB liabilities of the participating employers, calculated using the discount rate as disclosed above as well as what the collective total OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

*Changes in Proportion*

The previous amounts do not include employer-specific deferred outflows of resources and deferred inflow of resources related to the changes in proportion. These amounts should be recognized (amortized) by each employer over the average remaining service lives of all plan members, which is 8.05, 8.14 and 8.04 years for the 2019, 2018 and 2017 amounts, respectively. For December 31, 2019, the deferred outflows of resources changes in proportion is \$316,465 and the deferred inflows of resources changes in proportion is \$1,886,929. Including these values the December 31, 2019 total deferred outflows of resources and total deferred inflow of resources balances are \$323,549 and \$7,449,725, respectively. There were no deferred inflows of resources or deferred outflow of resources for the Dental Plan due to the Dental Plan OPEB liability being calculated using the alternative measurement method.

### **NOTES TO FINANCIAL STATEMENTS**

---

#### **H. DEFERRED COMPENSATION**

The Authority has a deferred compensation plan whereby eligible participating employees may choose to contribute amounts determined by plan and Internal Revenue Code guidelines. All employer contributions are made at the sole discretion of the Authority. There were no contributions made by the Authority for the years ended December 31, 2019 and 2018.

#### **I. CONCENTRATION OF LABOR FORCE**

Approximately 66% of the labor force is covered by a collective bargaining agreement with Construction and General Labor Union Local 172. The contract expired December 31, 2018, and was renegotiated in 2019. The new contract expires in December 2021.

#### **J. CAPITAL PROGRAM**

Expected capital program expenditures budgeted from 2020 through 2025 approximate \$28,233,000.

#### **K. RISK MANAGEMENT**

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The Authority maintains commercial insurance coverage for property, liability and surety bonds. As of December 31, 2019, the Authority has an ongoing litigation matter pending arbitration related to disputed change orders on various treatment plant capital improvements completed in January 2019. As of the auditors' report date, the potential loss related to this matter could not be reasonably estimated.

#### **L. ROUNDING**

Some amounts in the financial statements may have dollar differences due to rounding.

#### **M. SUBSEQUENT EVENT**

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a Public Health Emergency of International Concern and on March 10, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Authority operates. Due to the impact of New Jersey Governor Murphy's Executive Order No. 107 dated March 21, 2020, mandating statewide stay-at home practices and closure of all non-essential retail businesses, it is reasonably possible that revenues will decline significantly. It is unknown how long these conditions will last and what the complete financial effect will be to the Authority.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Chairperson and Board Members of  
Ewing-Lawrence Sewerage Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements of Ewing-Lawrence Sewerage Authority (the "Authority") as of and for the year ended December 31, 2019, and the related notes to the financial statements, which comprise the Authority's basic financial statements, and have issued our report thereon dated April 8, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the basic financial statements, we considered the Authority's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS  
(CONTINUED)**

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
